- 18      21-324      Motion presented by Councillor Rotondo: That the Mayor or his designee provide the City Council with an update on the construction of the new DPW facility.

**RESULT: ORDERED - VOICE VOTE**

- 19      21-325      Motion presented by Council Vice-President Visconti, Council President Zambuto, Councillor Serino: That the City Council go on record in support of Mayor Arrigo's letter to the Boston Public Health Commission regarding the use of the Quality Inn as a homeless transitional center. Further, that Council be recorded as opposed to the proposal by the Boston Public Health Commission and its partners to utilize the Quality Inn in North Revere for such purposes.

The City Council unanimously agreed that this particular use is not wanted in our community nor does the City have the funding and public safety resources required for such a huge undertaking. The City of Revere is dealing with its own homelessness and addiction issues and cannot take on the City of Boston's issues in addition to our own. The location of the Quality Inn is also not conducive to assisting those in recovery. Quality Inn is located on Route 1 with no nearby public transportation, it abuts a residential neighborhood, and a large volume liquor store. This proposal was not a coordinated approach by the BPHC.

Councillor Giannino in her capacity as State Representative read the following letter into the record:

Executive Director Dr. Bisola Ojikutu, MD  
MPH Boston Public Health Commission  
1010 Massachusetts Ave, 6th  
Floor Boston, MA 02118

Dear Dr. Ojikutu,

It is with great urgency that we write to you today regarding the untenable position that your

agency has put vulnerable residents, the City of Revere and Town of Saugus in. More specifically, we are appalled by the lack of transparency, communication, accountability, or even basic courtesy that the Boston Public Health Commission has displayed in concocting and attempting to execute a “regional” plan to address the disaster within its own jurisdiction on Melnea Cass Boulevard by converting the Quality Inn Hotel at 100 Morris Street, Revere, to a homeless transitional center. We, the undersigned Representatives of communities that surround the City of Boston, are deeply concerned about the chaotic & cryptic nature of both this process and the dis-information that has resulted from it being spread across the region. As a result, we have lost a great deal of confidence in the Boston Public Health Commission’s ability to take any kind of a leadership role on an issue of such regional public importance. People experiencing homelessness and battling substance use disorder deserve the resources and intervention efforts necessary for them to lead stable, fulfilling lives.

Regrettably, the actions taken by the BPHC thus far place the City of Revere’s commitment to these neighbors in jeopardy while at the same time frustrating efforts for the stakeholder buy-in and collaboration necessary to combat this regional crisis. If the City of Revere can be forced into such an adversarial position on an issue that it has previously shown true commitment to solving, it leaves all surrounding communities wondering if they are to be the next victims of the BPHC’s callousness. The City of Boston has adequate hotels and the funding necessary to provide for the unhoused individuals from Melnea Cass Boulevard without transferring the burden onto the communities that surround Boston. Given the immense challenges of supporting a population marginalized by high rates of substance use disorder, mental health challenges, and trauma, every public health measure concerning the unhoused ought to establish clear lines of communication and readiness protocols with all involved stakeholders. The actions of the BPH, therefore, currently pose an imminent threat to all the communities that surround Boston which jeopardizes their ability and willingness to work together.

It is clear that little to no planning was undertaken in advance of the relocation of unhoused individuals from Melnea Cass Boulevard. The BPHC has continued to insist that the Quality Inn initiative is just one instance of a larger regional approach to the crisis on Melnea Cass Boulevard, yet they have not been able to provide the City of Revere or Town of Saugus with any examples of other municipalities joining this effort or converting facilities for displaced residents. This information gap is particularly frustrating, as Revere believes that an initiative that could bind several municipalities together in solidarity to root out homelessness in the Commonwealth is one worth undertaking. This effort cannot be solely focused on our Gateway Cities, but rather a true collaborative approach across our region.

Beyond the logistical and communication challenges, the BPHC has set the stage for fierce, adverse reaction against the interventions our homeless neighbors need, ultimately undermining the public health improvements we all agree are necessary. We join as colleagues in expressing our deep concern and wish to be very clear: any scenario in which BPHC continues to abuse homeless men and women by evicting them from their city and into surrounding communities like this is an unacceptable one and will be met with fierce opposition. We hope that you will reconsider these ill-conceived plans immediately and initiate a dialogue with public health officials in adjacent communities to chart a new course that will have a real chance at creating comprehensive, inclusive solutions to these problems.

Thank you for your prompt consideration of these matters.

Sincerely,

20      21-326      Motion presented by Councillor Rotondo: That the Mayor request the City Solicitor and the Director of Public Health to draft a letter to the Massachusetts Department of Public Health requesting explanation on the legality of using a hotel as an unlicensed healthcare facility.

**RESULT: ORDERED - VOICE VOTE**

21      21-327      Motion presented by Councillor Serino: That the City Council request the manager of, or a representative from, the Quality Inn appear before the City Council to discuss the company's plans for future use of the Morris Street site.

**RESULT: ORDERED - VOICE VOTE**

22      21-328      Motion presented by Councillor Serino, Council Vice-President Visconti: That the Mayor request a public meeting and public process to discuss any proposal to utilize the Quality Inn as a homeless transitional center. Residents of North Revere should be invited to this meeting, and it should be hosted by the Quality Inn, the Boston Public Health Commission and any stakeholder seeking to use the hotel for such purposes.

Mary Gandolfo, 619 Washington Ave., Revere, MA submitted the following commentary relative to this matter:

As a resident of Revere, I am OPPOSED to the Proposal by Boston Public Health Commission to Use the Quality Inn as a homeless transitional center. I am SEVERELY CONCERNED.

- #1-There are all residential homes behind the quality Inn on those streets.
- #2-Our Bike Trail nearby...& Children's Park, where people try to feel safe taking a bike ride/walk & kids playing etc.
- #3-Boston is trying to ( transfer their problem to Revere).
- #4-This proposed use of the Quality Inn, it doesn't belong here in a neighborhood,...
- #5-I'm Asking our Elected Officials in Revere & State Delegation, to Come Out Strongly Against this Proposal.
- #6-Boston has known about THEIR problem at Mass Cass/ Methadone mile for a long long

time., YET, They did NOTHING about it. Transferring their problem to Revere is not the answer, AND NOT A FIX FOR THIS PROBLEM. #7-Boston should contact the state for assistance with the Mass Cass problem. Not ship it to Revere, We cannot handle this here. We are not equipped to handle this, I think this was very inconsiderate of our Residents in Revere, for Boston to propose this. Honestly Boston, you don't run our city, and should not be proposing social programs in OUR city. Instead, Boston should look to the state government to better come up with resources to Help Boston with this problem.

I wish Boston all the Best with helping those people, but transferring people is not fixing the problem or helping them. In fact it's also Unfair to the people you want to transfer, as it's not legitimate help. It's just a band aid that won't actually help them heal at all. Revere does not have the resources. (I would like all residents of Revere to be allowed to attend & speak at this public hearing

Thank you, Mary Gandolfo 619 Washington Ave., Revere, MA

- 23      21-329      Motion presented by Council Vice-President Visconti: That the Mayor request the City Solicitor to file a request with the City of Boston under the Massachusetts Public Records Law (MGL Chapter 66, Section 10) seeking any and all financial records relative to the costs associated with public safety and public works labor and resources expended to manage the homeless encampment crisis at the intersection of Massachusetts Avenue and Melnea Cass Boulevard.

A resident of 73 Neponset St., Revere, MA addressed the City Council on this issue. She was strongly opposed to moving homeless residents of Boston into a hotel with no plan or support in place. She agreed that the City of Revere does not have enough revenues and resources to handle such a large scale undertaking. Boston on the other hand is a much larger community and generates millions more in revenue per year and has the ability to effectively assist their residents instead of placing them in other communities.

**RESULT: ORDERED - VOICE VOTE**

- 24      21-330      Motion presented by Councillor Keefe: That the Mayor request the City Solicitor to draft an ordinance providing for the Construction Oversight Department to provide written notice and daily fines for curb cuts and trenches that are found to be insufficient. Repairs shall be made within 5 days of written notice or a fine will be issued. In the event after 30 days after written notice to insufficiencies are not repaired, the City shall make the appropriate repairs and bill the company or companies responsible for the original work. Any companies found to be unresponsive or have unpaid fines exceeding 30 days, shall have any pending permits revoked until work is properly completed and all fines are paid.

An ordinance already exists which can accomplish what Councillor Keefe is requesting. His hope is that the proposed new position for Construction Oversight Director will help enforce what is already on the books.

**Point of Personal Privilege Relative to 9/11 20th Anniversary**

Councillor Serino took a point of personal privilege and offered the following remarks relative the 20th anniversary of September 11th:

On Saturday, our nation marked the twentieth anniversary of the attacks of September 11<sup>th</sup>, 2001. A day in which our freedom and way of life were attacked in an unprecedented manner. 2,977 innocent people were killed at the World Trade Center in New York, at the Pentagon in Washington, and in a field in Shanksville Pennsylvania, and over 6,000 were injured. 412 of the victims were first responders who died in the efforts to try to save others' lives. These were firefighters, police officers and EMTS - all heroes on that day and every day. As a city we gathered on Saturday to commemorate the tragic events of 9/11, but I think it's appropriate that we, as a Council, remember by offering a moment of silence in memory of our fellow Americans lost on that day. In the spirit of commemorating the twentieth anniversary of September 11<sup>th</sup> and seeing that today, our city and country tend to be divided on the basis of political ideology, I wanted to briefly reflect on the days following September 11<sup>th</sup>, and leave

the Council and our community with this “Reflection on September 12th by Bryan Yager”

*“Here is what I remember about 9/12: People were kind to each other. Strangers asked other strangers about their well-being and cared enough about others to stop and listen. There was genuine concern for others. Drivers were more courteous; you could use your turn signal to merge lanes and other drivers would slow down enough to let you merge without honking or flying a middle finger. Mixed religions and congregations worshiped together. The spiritual, religious and non-religious spent time together in prayer or time of reflective meditation. Parents were more patient and loving with their children. It was OK to hug each other. Neighbors were more neighborly. For the most part, America was a kinder, gentler, more respectful and loving place to live. Today, I ask these questions, “Why do we need a 9/11 to have a 9/12? Why does it take the worst of humankind to bring out the best of humankind?” Our organizations, neighborhoods, families and country will not grow, change or improve unless each of us, as individuals grow and improve first. When we blame others without first looking at our individual behaviors and contributions to our circumstances, we become part of the problem. My request; let’s each try be part of the solution. While no person should ever have to endure another 9/11 in their lifetime, I so wish we could all live like it were Wednesday, September 12th, 2001... more caring, kinder, loving, supportive and patriotic - proud to be American.”*

- 4        21-276        That the City Council award a Certificate of Commendation to Kayla & Jordan Martelli for holding their 10th annual Alex's Lemonade Stand to raise funds for childhood cancer research and treatment. To date, the Martelli's have raised over \$50,000 through their fundraiser.

Councillors Keefe, Morabito, and Visconti presented Kayla and Jordan each with a Certificate of Commendation.

One condition from Site Plan Review as follows was not accepted by the Zoning Sub-Committee: That all units be brought into compliance with applicable building, health, and fire safety codes. This will be a requirement of the building and occupancy permits.

Alternatively, the Zoning Sub-Committee accepted Attorney Simeone's proposed findings and conditions as follows which were made part of the special permit:

### **FINDINGS**

after reviewing the Project plans the City Council made the following findings in accordance with G. L. 40A §9, §11 and R.R.O. 17.48.080(C).

1. The Project seeks to modify a nonconforming structure by altering the existing nonconforming structure for the same purpose to a substantially greater extent to establish and confirm ten (10) apartments units.
2. The Project is located in the General Business District (GB) in accordance with the Revere Zoning Map and the Revere Revised Ordinances.
3. The Project site is Lot X Beach Street, which consists of ninety and eight tenths (90.8) feet of frontage on Beach Street, a public way, fifty-nine and one tenth (59.1) feet on Walnut Avenue, a public way, and consists of seven thousand two hundred and seventy-four (7,274) square feet of land with one (1) nonconforming structure thereon.
4. The Project site's address is 565 Beach Street aka 29 Walnut Avenue, Revere, Mass..
5. The Project Site an Floor plans sets forth ten (10) off street parking spaces with the nonconforming structure at 565 Beach Street, Revere, Massachusetts prepared by PJF And

Associates Inc., 4 Highland Avenue, Wakefield , MA 01880 dated August 20, 2021.

6. The Project site is presently serviced by municipal water and sewer; as well as electricity and gas.
7. It is the determination of the City Council that such alteration of the nonconforming structure shall not be substantially more detrimental than the existing nonconforming structure to the neighborhood and the Project will have beneficial effects on the City and the neighborhood, in view of the particular characteristics of the site and of the proposal in relation to that site.

The City Council’s determination is based upon consideration of each of the following factors as set forth in R.R.O. 17.48.080(C).

1. Social, economic, or community needs which are served by the proposal.

The Project advances economic needs of this commercial/residential neighborhood in the GB district and will not adversely affect the neighborhood wherein the Project will not create adverse impacts such as noise, odor, smoke or dust and will not substantially generate traffic. The Project does not deviate or substantially change the character of this area wherein there exists currently multifamily and commercial properties.

The Project site is an appropriate location for the Project located in the GB district, which allows the modification of nonconforming structures (multifamily and commercial) by special permit. The Project site has a nonconforming multifamily dwelling; similar to the zoning district and which exists other uses without impeding the normal use of the Project site or surrounding property.

2. Traffic flow and safety

The City Council finds that the Project in concert with the historical use of the Property shall have no potential impacts on the transportation infrastructure associated with the proposed Project to be located at the Project site.

Based on these findings the City Council determines that the Project will not negatively impact or impede the movement of vehicles, pedestrians or bicyclists within the Project site, to abutting properties or along adjacent roadways.

3. Adequacy of utilities and other public services.

Adequate and appropriate facilities together with other public services exist at the Project site. The public ways adjacent to the Project site are sufficient to support the Project and the neighborhood which currently has a wide gamut of commercial uses including multifamily dwellings, restaurants and related business for the public convenience. The current infrastructure and roadways handle the existing requirements of this area.

4. Neighborhood character and social structures.

The Project is in harmony with the other multifamily/commercial uses in the neighborhood, the zoning district and with the general purpose and intent of the Revere Revised Ordinance. As noted this neighborhood currently has wide gamut of multifamily/commercial uses. Further approval of the Project will allow Mikeith, LLC to improve the condition of the Project site, and therefore benefit the neighborhood and the general public at the community.

5. Impacts on the natural environment.

The Project site consists of seven thousand two hundred and seventy-four (7,274) square feet of land with a nonconforming structure thereon. The Project site is almost entirely paved with no natural vegetation. The Project will have no negative impact on the natural environment existing at the Project site.

Respecting the natural environment existing on abutting properties surrounding the Project site, the Project will not impede light, air, and space to adjoining properties nor will the Project over crowd or have any negative affect on neighborhood density, wherein the Project impacts shall remain within the Project site.

6. Potential Fiscal Impact

The Project shall provide new jobs and additional municipal revenue including but not limited to real estate tax revenue.

**CONDITIONS**

1. The proposed modification which includes exterior and interior alterations shall be reviewed and approved by the Fire Department with respect to compliance with fire safety codes.
2. A raised landscaped area shall be created on the Beach Street side of the nonconforming structure. A final landscaping plan for the site must be approved by the Site Plan Review Committee.
3. A final as-build plan including the location of modifications as set forth herein as well as all parking spaces, fencing and landscaping plan must be filed with the Site Plan Review Committee prior to the issuance of an occupancy permit. The final as-built plan shall show the location of all utilities within the site including water, sewer and drainage.

The Zoning Sub-Committee voted unanimously to provide a favorable recommendation to the City Council for the special permit subject to the findings and conditions presented.

RE: Riverside Boat Works Property

Dear Council President Zambuto and Members of the City Council:

A conflicting commitment prevents me from attending tonight's public hearing. Nonetheless, I wish to express my enthusiastic support for the City's acquisition of the Riverside Boat Works property at 29 Thayer Avenue.

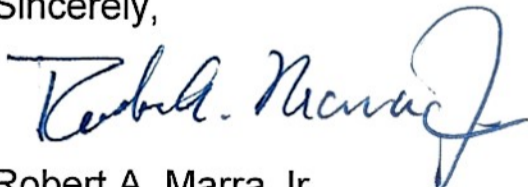

As a resident of the Point of Pines who served on the Riverfront Development Advisory Group, I recognize and appreciate that the City's financial investment in this property will produce multi-faceted benefits that fully justify the cost. The prospect of a future community rowing and educational center at the Boat Works site represents a bold and productive measure that symbolizes Revere's exciting evolution as one of Massachusetts' most outstanding communities.

While Revere is proudly identified by its Beach and oceanfront, the acquisition of the long-dormant and unsightly Boat Works property--and its future use as part of an expanded Gibson Park--will offer the residents of Revere unprecedented recreational opportunities along our neglected Riverfront that make the most of our unique coastal location.

The Riverfront Development vision presents an historic opportunity to refurbish Revere's underdeveloped northern peninsula into a gleaming symbol of the City's dynamic progress.

The City's acquisition of the Boat Works property will signal Revere's commitment to its modern character, ideals, and foresight. I heartily urge your approval of this prudent investment in the City's future.

Sincerely,

Robert A. Marra Jr.

Re: City of Revere Land Transfers

Dear Members of the Honorable City Council,

I write to request that your ordering the attached home rule petition that would authorize a transfer of an easement from the Department of Conservation and Recreation and the Division of Capital Asset Management and Maintenance to the City of Revere for municipal purposes. Upon Council approval, this legislation would be sent to Representative Jessica A. Giannino for introduction in the Massachusetts House of Representatives.

The transfers would allow for the activation of a public information kiosk at Wonderland Station as well as the construction of essential public fire safety facilities. Statutory information can be found in the text of the legislation itself, and if you would like to hear more about the necessity of this matter, please reach out to Frank Stringi, City Planner, or Don Ciaramella, Chief of Infrastructure.

Thank you for your efforts to ensure the speedy passage of this legislation for the convenience of our residents.

Regards,

Brian M. Arrigo
